DEAN'S FOREWORD

السلام عليكم

All praise is due to Allah SWT for whose blessings enabled the faculty to produce the *Guidebook of Graduate Study Programs*. This guidebook serves as an important document to which graduate students of the Faculty of Art, Sustainability, and Creative Industry (FSKIK) should refer throughout their study in the Sultan Idris Education University (UPSI). This guidebook introduces students the faculty and its departments together with the various academic programs offered. The year 2021 significantly marks the eleventh year of the establishment of FACCI that provides a number of unique programs that focus on the elements of art, multimedia, and computer science

FSKIK strives to offer unique graduate programs based on research modes. Moreover, with flexible learning and research of various graduate programs and excellent facilities, students will be able to learn in conducive and stimulating environments. In addition to pursuing academic excellence, students will also learn and practice good morals and ethics that help develop and nurture a strong academic culture in the campus.

As outlined in the guidebook, student learning that has been carefully and meticulously planned can help realise the intended program outcomes, the impact of which can help propel our nation of various creeds and ethnicities to greater heights. Finally, I hope this guidebook can be fully used by all graduate students to help guide your study with the ultimate aim of becoming a truly deserving graduates and future experts in the discipline of your interest.

“PENERAJU KEBITARAAN PENDIDIKAN”

PROFESSOR DOCTOR MOHD FAUZI BIN SEDON@M.DOM

Dean,

Faculty of Art, Sustainability and Creative Industry.

BACKGROUND OF UPSI

In the history of national education, University Pendidikan Sultan Idris (UPSI) is an iconic public institution of higher learning. From a humble but significant inception as a small teachers training college, this institution has now become a reputable full-fledged, comprehensive education university in Malaysia, spanning three eras in its development. The first era saw the establishment of Sultan Idris Training College (SITC) on 29 November 1922 – the first of its kind in then Malaya – which operated until 1957. Then, the second era followed with the upgrading of the previous teachers training college into Maktab Perguruan Sultan Idris (MPSI), which operated in 1957 until 1987. Later, Institut Perguruan Sultan Idris (IPSI) came into being on the 21 February 1987 that lasted until April 1997, the year in which UPSI was established.

Clearly, these three eras spanning 75 years highlight the continual process of training of teachers undertaken by this institution – a remarkable feat by any standard. On the 1 May 1997, this institution was conferred with a full public education university status, which was incorporated under the *Perintah Universiti Pendidikan Sultan Idris (Perbadanan) 1997* and *Perintah Universiti Pendidikan Sultan Idris (Kampus) 1997* through the Government Gazette P.U (A) 132 and 133 dated 24 February 1997.

In its early beginning, there were only four faculties, namely the Faculty of Language, the Faculty of Social Science and Art, the Faculty of Science and Technology, and the Faculty of Cognitive Science and Humans Development. Gradually, the number of academic programs grew with each passing year. As such, in 2002, two new faculties were introduced, namely the Faculty of Information Technology and Communication and the Faculty of Business and Economy, thus increasing the number of faculties to six, with 19 undergraduate programs. The increase in the number of programs offered underscored the imperative to meet the demands of increasing number of undergraduates and academics. In the same year, the Faculty of Sports Science was established and the Faculty of Social Science and Art was renamed as the Faculty of Art and Music, thus increasing the number of faculties and academic programs to eight and 32, respectively.

In 2010, a major restructuring exercise was carried out to improve the competitiveness of UPSI to help realize its vision and missions as a pioneer in innovation and creativity, research, commercialisation, high-impact and creative design, and in the development of creative workforce to help improve the nation's economy. Through this restructuring initiative, several new faculties were established as follows:

1. Faculty of Art, Sustainability and Creative Industry
2. Faculty of Science and Mathematics
3. Faculty of Language and Communication
4. Faculty of Sports Science and Coaching
5. Faculty of Humanities

6. Faculty of Music and Performing Art
7. Faculty of Humans Development
8. Faculty of Management and Economy, and
9. Faculty of Technical and Vocational
10. Faculty of Computing and Meta-Technology

VISION, MISSION, MOTTO AND AIMS OF UPSI

VISION

To become an excellent university that plays a leading role in educational leadership and spearhead efforts in facing global challenges.

MISSION

To develop and foster strong knowledge of teaching, research, publication, and consultation that contribute to the sound development of a vibrant and knowledgeable society as encapsulated in the nation's vision.

MOTTO

PENERAJU KEBITARAAN PENDIDIKAN

AIMS

To achieve the above mission, UPSI will strive to:

- Uphold a high level of sincerity and honesty in intellectual activities by exploring and questioning the accepted truth that will lead to the development, expansion, and enhancement of knowledge.
- Promote continual contributions to help develop and enrich knowledge, especially in the use of Malay Language, in diverse fields.
- Share knowledge through intellectual activities, including information networking, education, publication, and consultation, locally and internationally.
- Nurture individuals' potentials to make them become learned, morally upright, knowledgeable, and highly patriotic.
- Encourage the members of community to be more emphatic such that they will be able to contribute to the society and the nation, particularly in nurturing the spirit of nationalism and patriotism that helps develop a strong Malaysian race and improve universal wellbeing.

BACKGROUND, VISION, AND ESTABLISHMENT OF FACULTY

BACKGROUND OF FACULTY

In keeping abreast with the latest advancements and emerging national needs, the seventy-second senate meeting, which was held on the 15 September 2009, approved the proposal to restructure all faculties of UPSI. This restructuring effort helped streamline the running of academic programs of various faculties and to combine existing faculties and departments into several appropriate faculties. Later, on the 1 June 2010, the Faculty of Information and Communication Technology and the Faculty of Art and Music were combined to become the Faculty of Art, Computing and Creative Industry. Currently, this faculty consists of three departments, namely the Department of Art and Design, Department of Computing and Department of Creative Multimedia,

COURSE SYNOPSIS

GRU70104 Advanced Educational Research Method

This advanced course discusses concepts theories, models, processes and ethics in research thoroughly. The focus of this advanced course is to critically discuss theories and models, areas and topics of research, the purpose of research, problem statements, the construction of research question or/ and hypotheses, literature reviews, methods of collecting and analyzing data, conclusion and recommendation as well as report writing.

GRU50204 Educational Research Methods (Research)

This course discusses concepts, theories, models, and processes in research. The focus of this course is to identify theories and models, research areas and topics, research objective, problem statements, construction of research question or/ and hypotheses, literature review, methods of collecting and analyzing data, conclusion and recommendations, dissertation writing and research ethic.

MRU60604 Research Methodology in Design for Creative Multimedia

This course is an introduction to research methodologies commonly used in the area of design for creative multimedia. Covering a comprehensive range of issues and challenges in design context. Students are to be exposed to rigorous and innovative design approaches that can be applied in research process.

MRU60504 Art & Art Education Research Methodology

The course focuses on the research methods in the fieldwork. Application of data collection and analysing procedures and techniques in Art and Art Education Research. Students identify research problems, determine the methods and instruments used. Students conduct research in the field with instruments that are built using the proposed techniques and data collection. Students are required to make data analysis and conclusion and submit report individually and in groups.

IMPORTANT NOTES:**RESEARCH PROPOSAL PRESENTATION**

1. Students are required to attend at least one (1) presentation of research proposal before they present their research proposal.
2. The maximum period given to a PHD/master's degree student (by research and mixed mode) to present the research proposal is as follows:

Study Status PHD /Master	Proposal present <u>before</u>
Full-Time	*Second semester (subsequent to registration of dissertation)
Part-Time	* Third semester (subsequent to registration of dissertation)

3. The Rather Unsatisfactory status will be given to students who fail to present their research proposal after the second semester (for full-time students) or third semester (for part-time students), despite having submitted the research progress report and being given the Satisfactory status by the supervisor. The following are the prescribed levels of assessment for a student:

Study Status PHD/ Master		Status received Status
After second semester (full-time) After third semester (part-time)	First time	Rather Unsatisfactory (KM)
After third semester (full-time) After fourth semester (part-time)	Second time	Unsatisfactory (TM)
After fourth semester (full-time)) After fifth semester (part-time)	Third time	Unsatisfactory and terminated (two consecutive times of Unsatisfactory status) (TM)

RESEARCH FINDINGS PRESENTATION

Students MUST present at least one (1) research findings before submitting the notice and preliminary thesis to IGS (for all PHD students and Master by research starting Semester 2 Session 2017/2018).

RESEARCH PROGRESS REPORT

All PHD and Master Student MUST submit their research progress report online every semester.

FACILITIES OF THE FACULTY

FACCI has an impressive array of laboratories and studios, which are strategically located around UPSI campus. In particular, the management centre of laboratories and studios occupies the Information Technology Building, which oversees the management and control of such facilities. The following table summarizes the name of buildings and the number of laboratories and studios for learning and teaching activities.

NO.	NAME OF BUILDING	NO. OF LABORATORIES
1	Integrated Knowledge Laboratory	3
2	Rahman Talib Building (MoCAP)	1
3	Art Studio : A	1
4	Art Studio : B	1

All laboratories are fully equipped with the latest software and hardware to support the learning and teaching process. In addition, they are open for students to gain internet access to information and materials required for assignments, projects or research. The following table provides the details of the Information Technology laboratories.

No.	LABORATORY	NO. OF LABORATORY
1	Animation Lab	1
2	Macintosh Lab	1
3	Graphics Studio	1
TOTAL		3

MISCELLANEOUS FORMS

Please refer to FSKIK website / IGS website to download miscellaneous forms.

STUDENT ATTIRE

Students must at all time comply with the student attire requirements as stipulated by the university rules when attending lectures in lecture halls and interacting with officers at the office counters. Students are also required to comply with the proper attire requirements when they are in the campus.
